## Superior Benifits :

- self-error detective, very durable and attractive.
- Warranty is 2 years
- Can work with new developed wireless online iMaid System to enable hotels to have real time rooms' status,To check if guest is in room or out and how much time he stays,To get fast response from guests if DND and CLEAN is requested.
- Can realize " One Card System ", Wall Reader and Elevator Controller are available to be integrated with hotel elevator, parking barrier system, common doors, swimming poor doors, restaurant doors, POS...etc.
- CE, FCC certified
- Adopt Japan MABUCHI micro-motors which ensure 500,000 running times without problems.
- RFID Mifare PHILIPS technology, 100,000 times write life for keycard, contactless reading keycard.
- ANSI / US Standard mortises
- Free-rotating while locked
- Powered by 4 units of AA batteries, easy replacement.
- Openings 20,000 times for one new battery pack.
- Mifare card and RF card versions are available.
- Lower power alarm voltage : 4.8V ( still able to open about 100 times )
- Meeting passage mode is actived by passage card for meeting case.
- 3 public passage modes : Hotel Passage, Building Passage and Floor Passage.
- Do not disturb ( D.N.D )function is available : while dead bolt is on from inside, the lock will refuse keycard from outside by red light blinking.
- Panic release function : the deadbolt and latch are automatically retracted by inside handle pressing to easy egress when emergency happens.
- For 35-75mm thickness doors.

## Card Useage :

- Guest Card : Issued from reception to open its own room with expiration date.
- Master Card : Hold by management or GM or Manager to access all rooms of hotel ( even locked by deadbolt ).
- Floor Card : Hold by clean staff to enter the rooms in one floor.
- Building Card : Hold by Manager to enter the rooms in one building.
- Lost Card : To suspend the lost guest cards.
- Emergency Card : Enter all rooms when emergency happens, and the rooms will stay open.
- Group Card : Can open all rooms you selected in one Group. random rooms.

## Technical Features :

- Power : 6V / 4 x AA batteries
- Card : RF ( 125KHz ) and Mifare ( 13.56MHz ) Cards are available.
- Inductive Distance : 2-5 CM
- Working Temperature : -30℃~60℃
- Working Humidity : 15~85% RH
- Static current : < 10uA
- Working current : < 150mA
- Unlock record : The latest 350 records is available
- Gross Weight : 2.9 KGS
- Package : 6 Locks / box , 61.5x36.5x32 CBM / carton.
- Open mode : Card and Mechanical keys.

- Power : 6V / 4 x AA batteries
- Card : RFID ( 125KHz )
- Inductive Distance : 2-5 CM
- Working Temperature : -30℃~60℃
- Working Humidity : 15~85% RH
- Static current : < 15uA
- Working current : <200mA
- Mortise: Single Latch 60/70mm
- Gross Weight : 2.5 KGS
- Package : 6 Locks / box , 61.5x36.5x32 CBM / carton.
- Open mode : Password, Card and Mechanical keys.

SS-818PW-G

## Superior Benifits :

· Stainless steel 304 for panels, handles and mortise, with popular acrylic surface on panels.
· The sensing card is under hierarchic management
· Operated by fingerprint + password + card + key + remote control ( optional )
· 9 Managers (No.1-9), 291 Users (No. 10-300, including fingerprint + password + card + remote controller )
· Semiconductor acquisition fingerprint(Swedish FPC)
· Humanization LED screen
· Emergency door opening with mechanical key
· Password entering with touch keys
· The password can contain messy codes, and the maximum number of digits is 20
· Users can be deleted individually or delete all in one time.
· Passage mode is available.
· English voice guide is available.
· Dead bolt can be engaged by lifting handle
· With 4.8V low voltage alarm, the lock can still be unlocked for 200 times.
· For 40-120mm thickness doors
· CE, FCC Certified

## Technical Features :

· Size : 359 x 79 x 33 mm
· Power : 6V / 4 x AA batteries
· Card : Mifare ( 13.56MHz ) Card
· Inductive Distance : 2-5 CM
· Working Temperature : -30℃~60℃
· Working Humidity : 15~85% RH
· Static current : <20uA
· Working current : <200mA
· Error rate : < 0.0001%
· Refusal rate: < 0.02%
· Verification time: <300 Millisecond
· Unlock record : 256pcs or more
· Mortise: national standard mortise
· Gross Weight : 6 KGS
· Package : 4 Locks / box , 52x44x35 CBM / carton.
· Open mode : Fingerprint, Password, Card, Mechanical keys and Remote controller ( Optional ).

SS-AP07

Part 3

SS-1705TS
Part 2

## Technical Features :

1. **Functions: Wireless, Hidden guest-in, Room no.,Don't Disturb, Make up room, Bell, Room Status Online-Checking.**
2. **Main Valuable Functions and Features for our wireless online iMaid system:**
· No wires between out-room panel and in-room panel. There is no wiring required between outdoor panel and indoor panel, hotel doesn't need to open new holes for wiring from inside to outside, save labor cost and time, it makes things easier.
· To get fast response from guest if DND or CLEAN is requested by wireless online from reception desk or mobile APP Housekeeper or maid doesn't need to go to each room to check DND, CLEAN requests, he or she can get requests from reception desk or by phone via APP.
· To check if guest is in room or out and how much time he stays. Housekeeper or management can see room status easily on software or by mobile.
· To refresh guests' mind and give good image of hotels. This system makes guests more comfortable and feel at home to enjoy easier life which intelligent technology brings.
· To check real room status online at any time, anywhere. Management will be more rigorous and smooth, accounting will be easier under control.
· Less wirings needed, very good option for old hotels:To Save Wirings and Make Things Easier.
· Both inbuilt electronic doorbell and extraly wired real doorbell can be used optionally: To Give More Options for Doorbell.
